

Community Awareness Series: Promoting Healthy Behaviors

Our youth are our future's greatest asset. Schools, parents, caregivers and communities all play a role in providing supportive pathways for our youth as they navigate childhood and adolescence. SCIP (School Community Intervention and Prevention) is partnering with Lincoln Public Schools, Bryan Independence Center and the Lancaster Prevention Coalition to put on a series of valuable presentations about how to support the health and well-being of our community's youth. These events are open to parents, students, school professionals and community members.
